

THE CHARLEROI MAIL

VOL. XX—No. 56

CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, SATURDAY, AUGUST 2, 1919.

TWO CENTS

EVENTS ARE ANNOUNCED FOR HOME COMING ATHLETIC MEET

Entries Will Be Confined to Residents of Local Red Cross District

EVENTS BEGIN AT 1 O'CLOCK

A meeting of the athletic committee of which Walter Urban is chairman to arrange for events on the day of the home-coming celebration, was held at the borough building last evening, at which time they made a tentative list of events which will take place that afternoon on the ball grounds.

The committee decided that all those who desire to compete in these events must make entry by postcard or otherwise and must file the same with Dr. H. A. Stahlman, registrar for the events. The committee realized it would be impossible to conduct the meet unless this regulation is observed. It was also decided that entries would be confined to residents of the Charleroi Red Cross district, thus eliminating any of those contenders who make it a practice of attending such events for the purpose of pulling down prizes.

The meet is scheduled to begin at one o'clock, p. m., and will continue until the events have been concluded. Immediately after the contests have taken place the ball game will be called, and it must be over by 4 o'clock, at which time the boxing exhibitions take place. The events arranged for by the committee are as follows:

100 yard race for soldiers, first prize \$10, second \$5.
440 yard race, open, two prizes, medals.
One mile, open, first and second medals.
One half mile relay, open, four gold medals.
Broad jump, two medals, gold and silver.

CONVENTION OF CHRISTIAN CHURCHES

The Western Pennsylvania State Missionary organization of the First Christian church will hold its annual meeting in the First Christian church at Washington, September 15, 16 and 17. Rev. Robert Latimer, of Pittsburgh, is secretary. The regular biennial convention of the Women's Board of Missions will meet in connection with this association. All phases of church work will be discussed at these conventions.

BAND CONCERT AT THE BATHING BEACH

The Pittsburgh Steel Products band will give a concert at the Charleroi bathing beach, Sunday afternoon, beginning at 3 o'clock. Albert Boucher will be the soloist.

HEAVY DAMAGES ARE ASKED FOR COLLISION

In an attempt to recover \$3,500 damages two civil suits have been entered against Ernest Barbero of Monongahela City by John E. Hodgson and wife of New Eagle and G. W. Mountain and wife of Union Township, because of the collision and damages that resulted from the attempt of Barbero in an auto to pass a buggy in which the wives of both men, accompanied by the 3-year-old daughter of Mrs. Hodgson, were riding.

BOLD ROBBERY IN MONESSEN

The house of Lottie Welsh, at No. 80, in Wireton, was robbed by five men last night, and \$1,500 in jewelry and \$400 in cash taken. It is said the men, after gaining admission to the house, held up two girls in the place with revolvers and then tied them. Going up stairs they secured the jewels and cash from the Welsh woman and then made their escape in an automobile. The Monessen police believe they know at least one and possibly all of the participants in the robbery, and are looking for them. They are said to be Charleroi men.

GRAND JURY MEETS ON MONDAY NEXT

The Washington grand jury will meet on Monday next, and the August term of criminal court will convene on the 18th. Since the May term of criminal court about 200 criminal cases have been docketed, but about one half of these have already been disposed of on pleas of guilty. Following the sitting of the grand jury there will be about two weeks of the criminal term of court. The list of cases to come to trial may be lessened by pleas of guilty, of which there are always a large number during each term of court. The constables will make their quarterly return on Monday next.

TWO FORD MACHINES STOLEN IN MONESSEN

Two automobiles were stolen in Monessen last night, a small Ford truck being taken from J. L. Rodgers a plumber, and a Ford touring car from James Padivus, a baker. The Padivus car, which had been taken from near Ninth street, was recovered later near First street, but the lights and all the tools were missing. The Rodgers car has not yet been recovered.

Our lenses are guaranteed by the manufacturer to meet all State motor laws. Regan and Hormell, 5266

Peculiar Phase In The Stolen Automobile Cases

Frank Osterhout, Jr., of Monongahela, on Thursday, swore out a writ of replevin and directed to the Charleroi police, for the recovery of an automobile which the plaintiff said was his property and which the local police were holding in an illegal manner. The writ was served by Deputy Sheriff Hornbake on Thursday, and after holding the property for 72 hours the sheriff will turn the machine over to the Monongahela man.

Chief Albright however went to Washington on Friday and before the District Attorney made an answer to the writ, which will come up in court the third Monday of August for adjudication.

In the answer Chief Albright alleges that the car in question was stolen by the Allen and Jennings combination at Kennyswood park on the 18th day of last June; that at the present time the name of the owner is not known to them, but that they expect this information within a few days; that the defendants arrested for the thefts have admitted taking the car and selling it to Osterhout, and that the Charleroi police are holding the car until the owner can be ascertained and his property returned.

Osterhout filed a bond in the sum of \$600 when the writ of replevin was issued, and it is said if he takes the car, will be held responsible for any damages which might result from its use. The police will not attempt to hold the car against the writ, being satisfied to leave the court to settle the case, but in the meantime they are seeking diligently to find the name of the owner.

The police secured this car, along with a number of other cars, while hunting the cars which were stolen from the streets of Charleroi. Two of these cars were recovered, while the third was stolen from the thieves in Monongahela. While tracing the local cars they picked up clues of the others, which resulted in ten cars being rounded up and placed in local garages.

Joe Frank, who had his car stolen in Monongahela, has secured his car at the same time filing a bond to produce the car at court if necessary, paying the reward promised and making Allen and Jennings for larceny. Jennings who is already out on \$4,000 bail, has informed Chief Albright that he will go to Washington on Monday and enter a plea of guilty, and thus have the case disposed of at once.

Big Merchandise Robbery In Donora Friday Night

The department store of D. S. the highest priced silks and the most Bayne & Co., of Donora, was robbed expensive suits were taken. The man-Friday night of about \$5,000 worth of merchandise, and the Donora police believe that it was the work of while the most expensive of silks, hosiery, and other furnishings were taken. The police are now making a thorough investigation.

The robbery was discovered this morning when the store was opened, and an investigation revealed the fact that the thieves had made a complete haul of the finest goods in the store. Bayne is absent at the present time. It is believed the thieves were aided on his wedding trip, while Mr. Berryman in their work by an auto truck, which man is in New York on a purchasing trip for his store.

It is the opinion of the police that the same people pulled a big robbery in Monongahela a few nights before that a woman was concerned, as only when a drug store was robbed.

HIT BY AUTO AND GIVEN ONE YEAR FOR WANTS DAMAGES VOLUNTARY MANSLAUGHTER

Seeking to recover damages amounting to \$1,000 a civil suit has been entered in common pleas court of this county by Frank Keuche, of New Eagle, against Condace A. Smith. Keuche claims that the young lady defendant hit him with her automobile while he was returning to his home from work on the evening of April 15, and that he was severely injured. He also claims that Miss Smith did not sound a warning in any way and that she was driving at a high rate of speed.

John Logan, of Elrama, upon a plea of voluntary manslaughter before Judge McIlvaine on Friday, was sentenced to pay a fine of \$1 and costs and to undergo imprisonment in the county jail for a period of one year, his commitment to date from April 1, 1919. Logan was charged with the killing of Frank Slovina at Elrama on March 30 last. An investigation of the facts of the case by the Commonwealth did not sound a warning in any way and the deceased was the aggressor in the trouble that resulted in his death.

DR. MARTIN WILL ACT AS MEMBER OF SITE COMMITTEE

CHARLEROI SOLDIER IS HOME FROM SERVICE

Corporal James Hersche, son of Mr. and Mrs. George Hersche of 831 Lincoln avenue, arrived home Friday morning from overseas. Corporal Hersche was one of the first to answer the call to the colors, entering in July 1917. He served 15 months overseas, in which he participated in four major operations, which consisted of five battles. He was a member of the 58th Infantry, Fourth Division.

Asks For Large Amount Of Data In Connection With District

DATA MUST BE SENT AT ONCE

A telegram was received this morning, by the hospital campaign committee, to the effect that Dr. Edward B. Martin, State Commissioner of Health for Pennsylvania, had accepted the invitation to visit this district as a member of the hospital site committee, as requested by the committee.

However, contingent upon Dr. Martin's coming the local committee is asked to forward a large quantity of data, which is to be forwarded to Dr. Martin, that he may be conversant with the principal features of the district, and which will give him more time to consider the essential details which necessarily enter into the construction of a modern hospital.

Dr. Martin requests that the local committee send a survey, including a map, population of each town and district to be served by the hospital, road conditions and prospects, water supply and pressure at different points, sewage, altitude, etc. He also desires to know the scope of the proposed hospital, its size, its appointments, and other features, all of which can easily be furnished by the local authorities.

This information must be in the hands of Dr. Martin before he visits this locality, so that when he comes he may be able to go right to the vital point of making an intelligent selection of a site for the new building.

The telegram gave great encouragement to the hospital campaign committee, as it shows the great interest by the State Department of Health in the undertaking, and once this special site committee makes its report, it is believed the campaign will boom along under greater pressure and with every prospect of success.

The committee will at once proceed to the collection of the details desired by Dr. Martin that the site question may be disposed of at an early date.

Hon. W. J. McClellan, Chairman of the House Committee on Appropriations has telegraphed Mr. Kelly of Monessen that he will serve on the site committee. Dr. J. J. Baldy of Philadelphia is the other member.

It is hoped this committee will come here next week and make the selection of the site in order that the campaign for funds can be put on the last week in August.

NEW BUS LINE ON ALL RIVER ROUTE

When the highway between Donora and Monongahela is completed, the "hanging boulevard" in Allegheny county which begins at the end of the river bridge in Axleton and continues on to Bynola. It is likely that an auto bus service will be inaugurated between Donora and Elizabeth. Already application has been made to the Public Service Commission for a permit for such a company, and in all likelihood it will be granted. The route covered by this company will be quite picturesque, particularly from Axleton to Elizabeth, where the road follows closely along the river.

GOOD PROGRESS ON MONONGAHELA ROAD

More than one mile of the new concrete road now being constructed between Monongahela and Donora had been completed when the construction crew ceased their labors on Wednesday evening last. The work is progressing nicely, and with favorable weather the contractor ought to complete the job some time next month. While the road is under repair practically all traffic is suspended, but it when it is opened to the public it will be filled daily with motor traffic. While the road is under repair all traffic must detour over the hills.

DONORA SOLDIER IS GIVEN THE D. S. C.

John G. Belko, of Donora, and who served in the great war as a Sergeant in Company A, 110th Infantry, was awarded the Distinguished Service Cross by General Pershing. The honor comes as a posthumous reward, as Sergeant Belko was killed in action on the 8th day of last October. The citation specified September 27, 1918, as the date of one heroic act when Sergeant Belko won the cross. Under heavy machine gun fire he carried a wounded comrade, and later established a machine gun outfit which put to flight a large detachment of Germans.

DONORA ELKS TO HOLD ANNUAL PICNIC

The annual picnic of the Donora Lodge of Elks will be held at Eldora Park on Friday evening, August 15. A special jazz orchestra will furnish the music.

TRYING TO CHEAPEN FOOD

No matter what anybody's individual business may be; no matter how he may be personally interested in obtaining high profits or high wages from the particular line in which he is engaged it is incontestable that he is—as a member of the community at large—vitally concerned and desirous of a satisfactory adjustment of the prevailing unrest over High Cost of Living. The existing situation is no mere local or national one but a world matter. Living costs were on the up-grade long before the war and they were sent still higher by the war. The national wealth of the United States, the United Kingdom, France, Italy and Germany is estimated at 466 billion dollars. Prior to the war the combined national debts of these five nations was only 3.3 per cent of the total wealth. Today the national debts amount to 23 per cent. But thus far no one has ever discovered any financial magic whereby debt making can be honorably divorced from consequent paying the fiddler.

There should be no losing sight of this underlying state of affairs even when the President of the United States sends an eleven-hour demand to Congress to cancel its proposed recess and continue in session with price-lowering the first order of business. The president's cabinet has already made a great deal about getting busy on the subject. Members of the Federal Trade Commission, the Railroad Administrator and other administration officials have been impressed into ostentatious service under the spot light of the H. C. L. clamor; and the president himself sensing the psychology of the situation, and having already had his several months sojourn in Europe while the battle was sizzling, cancels his contemplated speaking tour of the United States on behalf of the League of Nations and politics and decides to remain in the White House, busy with the Cost of Living. By means of the ear-filling business of trying to batter down the prevailing living costs it may be possible to divert general attention from the already partly uncovered army scandals. It may be quite possible that favorites of "the powers that be" may be saved in this indirect fashion from being "shown up"; also it may be quite without any stigma of humiliation that the negotiator of the treaty of peace and the League of Nations, busied with the cost of living, can submit to amendment or reservation of the Versailles agreement.

But in whatever way the thing is looked at it does smack somewhat of the ineffectiveness of whipping the devil around a stump to get about spending more billions to cheapen food. Having guaranteed the wheat price through the season of 1919 it is now asserted that by spending a billion the market can be broken and the price of wheat brought down to a natural level of supply and demand. This may sound strange to the farmer who couldn't get anybody to cut his wheat even at the government price and so turned his pigs into the ripened grain. And quite in the same breath it is suggested that by contributing another billion to higher wages for the highly paid railroad men they may be satisfied. It may be quite possible by mortgaging the future to bring about a momentary semblance of decreased living costs, but there is no stability in a pyramid stood upon its apex nor do the glories of the wartime system lead to ultimate affluence. Not all the powers of the government can make black white and the general public doesn't and can't accept about the present high cost of living, should expect an Italian outcome from the present administrative rush of energy. Where there faults, they should be corrected and the inevitable laws of supply and demand will work out favorably, but it must not be overlooked that the extraordinary conditions prevailing during the last five or six years have strangled certain sources of supply while augmenting demands. And what still further complicates the situation is that while the supply of foodstuffs generally and of the materials necessary for living are

insufficient to meet the world's demand; and while there is a similar insufficient supply of certain forms of labor; there is, at the same time, an insufficient demand for other forms of labor. This insufficient demand prevents payment of sufficient money to these other forms of labor to cover the cost of living. Official action, national, state, local, should be taken where it will be of benefit to the general public, but the real cure is to be arrived at by the whole body politic and it will not be hastened by infection of any corroding virus of party politics.—Detroit Free Press.

DANGERS OF PEACE

Peace has its dangers as great if not greater than war. The report of the Department of Labor and Industry of Pennsylvania shows that a round 135,000 people were either killed or seriously injured in this state in the year 1918. What the returns for the entire country would aggregate is not known, but from the report of our own state they would exceed our casualty list in the great war by several hundred thousand.

The people of a community fail to realize the tremendous toll of life that industry takes, not only from day to day, but from year to year, our record for 1918 possibly being somewhat above the average owing to the desire to produce at a greater speed for war purposes. This immense total however only serves to show the need of hospitals in every industrial center, building not alone for present needs, but for the future as well. Every mill and every mine has its share of accidents, and the better the hospital in such localities the better it is for the patients. For this reason the campaign for an enlarged hospital for this section of the valley should be supported all the more energetically by every citizen, that its equipment and its arrangement may be of the highest class.

COAL IS KING

The report of Lock No. 4 for the month of July shows that coal development in the upper pools of the river is rapidly increasing. The report only shows the amount of production from Charleroi on south and has nothing to do with the pools below. When the big mining companies have completed the plans they now have under way, and are prepared to run coal in the manner and to the extent they expect, the transportation records at Lock 4 will show figures largely in excess of those published for July. Just now some big undertakings are under way in the coal fields to the south of us. Coal is going to be conserved, in that hereafter none of the ingredients are going to be wasted, and the methods heretofore in vogue are to be done away with. Coal is now a great factor—it will be greater in a few years from now. Some startling innovations are about to be introduced in taking coal from the producing point to the point of consumption and we need not be surprised when they are made public.

FACTS, NOT THEORIES

Debate of the covenant of the league of nations is running in second place down in Washington, and has been almost crowded off the front page of newspapers by the high cost of living. The people are not giving a hoot about the peace treaty just now—they are more concerned about the prices they have to pay for foodstuffs and wearing apparel and other features that enter into their everyday life. The league of nations may be all right, and the United States may be the big brother of all the nations in the world, but present conditions compel people to take notice of the things immediately in front of them, and sidetrack the altruists and the ideal for something more tangible than theories.

The British government is losing more than \$300,000,000 a year in operation of the railways. The increase in wages have in most cases far outstripped the increase in the cost of living, high as it is, and the railwaymen's union, one of the Triple Alliance, is making more demands. To take a sum like that out of the pockets of the patriotic taxpayer's army every year to pay excessive costs of operation is indeed a tax of patriotism.

According to report President Wilson does not approve of the sacrifice of Shantung. It would be interesting to know how many concessions the President made in order to obtain favor for his pet league, which by the way seems to have been violated in spirit at least right at the start by the treatment of the Chinese.

Avoid arrest by having your Auto Headlights fitted with approved lenses at Regan and Hormell's. 526

CANDIDATE FOR DISTRICT ATTORNEY.

To the Republican Voters of Charleroi:—

I take this opportunity to formally announce to you my candidacy for the Republican nomination for the office of District Attorney.

Born in Charleroi Township, I spent my summers on the farm and working at a country coal mine, and my winters in school, later graduating from Westminster College and the Law Department of the University of Pittsburgh. As to my qualifications as a trial lawyer, I invite the public to make inquiry as to my

record in the trial of cases, during the last fourteen years, before the Courts of this County.

If nominated and elected to the office of District Attorney, I assure the public that I will not permit that office to be debauched by being made the hub of a political machine, but pledge myself to use every effort to see that justice is fairly and impartially done to all alike, regardless of race, creed or color, guarding at all times as faithfully the rights of the poor as those of the rich.

Respectfully yours,
Erwin Cummins.

FELT HER EXALTED POSITION

Empress Theodora, Though Not Born to the Purple, Was Every Inch Royal Ruler.

The name Theodora has been borne by more than one lady of distinction in Rome and in the Orient. The most picturesque of the group was the Empress Theodora, wife of Justinian, Byzantine emperor, who lived fourteen centuries ago. She was the daughter of the keeper of wild beasts and was an actress in pantomime. "Living movies" one might call the performances, for without speaking a word she could make her audience hold its sides with laughter. But as soon as she became empress it was as if the blood of all the Caesars coursed through her veins, for none was more arrogant than this high-stepping daughter of the people. Here is one of her orders to a messenger: "If you fail in the execution of my commands I swear by Him that liveth forever that your skin shall be flayed from your body." And the messenger knew that she meant every word of it.

One may wonder if some of the monarchs who recently have faded from their thrones would have gone so readily if a Theodora had been present. There was an insurrection in Constantinople and Justinian and the royal household were about to escape on vessels waiting at the stairs of the palace gardens, communicating with the sea. Then spoke Theodora: "If flight were the only means of safety I should yet disdain to fly. Death is the condition of our birth, but they who have reigned should never survive the loss of dignity and dominion. I implore heaven that I may never be seen, not a day, without my diadem and purple." So she restored the waning courage of Justinian and his generals, and the day was saved.

NEW WEST INDIAN INDUSTRY

Exports of Divi-Divi, Product of Tree of That Region, Will Grow Now War Is Ended.

An interesting product in which Curacao, the important port of the Dutch West Indies, deals is divi-divi, which is the trade name for the curved peas of a small tree with a characteristic winding form, indigenous to northern South America, Mexico and a few of the Netherlands Antilles, says the American magazine. The planting is done by sowing only, and the chief dispensers of the seed were for a long time the goats. The dried peas are very much sought after in America and Europe because of the high percentage of tannin they contain—varying from 30 to 50 per cent. Curacao exported \$46,352 worth of divi-divi in 1916; \$28,788 worth in 1917.

Aloe, another product of the colony, is exported from Curacao, but is cultivated chiefly in the island Aruba, which is one of the six composing the colony. The gathering of the aloe leaves takes place during the dry season, after a part of the moisture they contain has been allowed to escape. They are cut and the brownish yellow, ill-smelling sap they contain is intercepted as it leaks out. Then the sap is placed in an oven to evaporate its moisture, and the residue is packed for shipment either in calabash shells or in specially prepared boxes. New York takes most of Curacao's aloe resin. It is chiefly used in the preparation of dyes and

medicines, and is one of the most generally prescribed purgatives in veterinary practice. In 1916 Curacao exported \$114,835 worth of aloe, \$46,490 worth in 1917.

Precious Stones in Nebraska.

A man from Nemaha county, Nebraska, went hunting moonstones in California and found two good specimens. He remembered that he had seen rocks of similar formation on his farm, and when he came home began looking for moonstones along the cow-path. When he had made a collection, as he thought, he sent them to the state geologist, who pronounced them agate, chalcedony, topaz and tourmaline. From these a jeweler cut 28 ovals of moonstone, mocha, sardonyx and moss, and carnelian agate, and 35 diamond cuts of others, including amethysts and rubies. These gems, which have been named the finest of the kind in Nebraska, range in color from very dark red through rose, purple, green, blue, orange and golden opal to marine blue.

Coconut Palm Tropical Cow.

Copra consists of the dried meats of coconuts. It contains from 50 to 63 per cent of oil.

In India, Cochinchina, the South Sea Islands and elsewhere the oil has been used as food since the dawn of history, for the fats contained in it are singularly like the milk fats of mammals in most respects. It is already in wide use in this country as "margarine," which is coconut oil into which some butter has been melted, and the whole churned with skim milk—that is milk with the fats removed—and worked as ordinary butter.

Five Animals Lost in Transit.

In a statement made by the war department it appears that since the United States entered the war and to January 11, 1919, this government shipped overseas from this country 67,944 animals, which included 5,459 cavalry horses, 33,326 draft horses, 28,058 draft mules, and 973 pack mules. The total number of animals lost en route overseas so far reported is 600 horses and mules, or less than 1 per cent of the total number of animals shipped.

DONORA TO FIGHT HIGH LIVING COSTS

Burgess Cox and a special committee from the council of Donora are going to investigate the cost of living in that borough. The first meeting to consider this important subject will be held some day next week, at which time the Burgess has invited the business men of the town to meet with the committee and discuss conditions.

Donora people believe they have been exploited by profiteers during the summer in the way of foodstuffs and particularly in the way of produce. The question in the steel town is most acute, and the residents are demanding relief. This relief Burgess Cox hopes to be able to give, and this is why the conference has been called. The people of that town have hopes that some good may be accomplished by this conference.

Democratic Meeting.
Monday, August 11, at 7:30 p. m., at public meeting room, new Borough Building, for the purpose of completing our Borough ticket. All are urged to attend.

J. P. Clutter, Precinct Chairman.

Mr. Mary Walters, a former member of the faculty of the Charleroi High School, now a member of the faculty of the Broadway High School at Seattle, Washington, visited in town on Thursday.

WEDDING BELLS WILL NOT RING

The anticipated matrimony of Wasy Hnstko of Monessen was rudely shattered a few days ago, when Anna Konich, whom he induced to come from her home in Wisconsin, refused to marry him.

It appears that John Kutcha, a friend of the expectant bridegroom, wrote to Miss Konich, who is but 17 years of age, to come to Monessen and marry Hnstko. At the time the proposition appeared to appeal to the young lady and leaving her home on the farm run by her mother who is a widow she started on her journey east, arriving in Monessen two weeks ago. As soon as she arrived at her destination she was taken before a Notary Public where the necessary papers were made out for securing the marriage license.

Hnstko then proceeded to get ready for the wedding, and spent his money lavishly in procuring a trousseau for bride, at the same time arranging for the festivities in connection therewith in a lavish manner. However, the young lady, after further deliberation and contemplation, decided that Wasy was not exactly the kind of a man she wanted. In fact she had never seen him before her arrival in Monessen and finally decided not to marry him.

This peeved the expectant bridegroom and he went before Justice J. M. White of Monessen and swore out a warrant, charging the young lady with larceny. The Charleroi police were notified of the occurrence and found the young lady at the home of her aunt, Mrs. Spriduk, 1015 McKean avenue. This morning Constable Brandes of Monessen came over and met all parties in the Chief's office at the borough building, and arranged for them to appear before Squire White at 2 o'clock this afternoon. The young lady had brought the wedding gown with her, which she gave to the officer, and is said to be willing to return other articles bought by Hnstko for her—but to marry him, that is different.

NO OPPOSITION TO JUDGE BROWNSON

All of the petitions for Orphans' Court Judge and Common Pleas Court Judge from Washington County have filed their petitions in Harrisburg. At the list now stands Judge James I. Brownsong will be unopposed for the common pleas nomination and the primary will decide his election to that office.

For the new court judgeship in this county four candidates have filed petitions. They are Andrew M. Linn, Norman E. Clark, Halden B. Hughes and G. Plummer Baker. The contest for this office promises to be close and will likely have to be fought out finally at the November election.

AUTO ACCIDENT AT 7TH AND LINCOLN

An automobile driven by George Ryland collided with a touring car driven by W. S. Sweeney at the corner of Seventh street and Lincoln avenue about 7 o'clock last evening. Mr. Sweeney had turned on to Lincoln avenue from Seventh street, and was coming north. Ryland was driving in the opposite direction, and met the Sweeney car just as it was completing the curve, striking it near the rear fender, knocking off the running board and damaging the rear door. The front fender of the Ryland car, as well as the front axle, were damaged. Mrs. Sweeney and baby, in the car with Mr. Sweeney, were slightly injured when the collision took place.

WAR CORRESPONDENT TO VISIT HIS MOTHER

Percival Phillips, the famous war correspondent, who was considered the dean of the newspaper corps on the western front during the late war, has cabled his mother, Mrs. Anna Phillips of Brownsville, that he would sail from London today. Mr. Phillips is coming to Canada as a special correspondent with the Prince of Wales. Mr. Phillips began his newspaper career twenty-nine years ago in the office of the Monongahela Republican, under the late Col. Chill W. Howard going from there to Pittsburgh, and then to New York. It was while visiting in London that he was made an offer by the London Express which he accepted and with which journal he was remained for years. He will likely visit his old home while in America.

FIRE DOES \$10,000 DAMAGE IN MONESSEN

The old Dewey hotel in Monessen was badly damaged by fire last night, the total loss being estimated at \$10,000. The fire was discovered in the laundry in the basement about midnight, and the department being called. The fire apparently was subdued and the firemen went home, but about 3 o'clock another call was turned in, and before the blaze was under control the entire interior of the building had been gutted. The building had been arranged into living apartments, and was owned by Mrs. B. L. Beatty.

North Charleroi WINS HIGH HONORS ALTHOUGH ARMLESS

Mr. and Mrs. Ed. Graft have returned to their home in West Virginia after spending several days with Mrs. Thomas Cocain.

Burgess P. E. Franks has returned from a vacation in Ohio. He also visited in Greenecounty recently.

Mr. and Mrs. James Burkhardt of Pittsburgh were guests of Mr. and Mrs. Harry Burkhardt.

B. S. Sayer has returned from the Allegheny General hospital where he underwent an operation. He is improving rapidly.

Mrs. Kate Logue of Belle Vernon was a guest of Mrs. Holly Bell.

Robert McGowan visited in Pittsburgh.

Misses Olive and Verna Cratty are visiting with their cousin at West Newton for a few weeks.

Mrs. Grace Hawkins of McKeesport was the guest of her niece Mrs. James Chesure.

Mr. and Mrs. J. C. Howarth of Bruceton and Miss Elizabeth Hall of this place are spending a vacation at Mountain Lake Park.

Mr. and Mrs. Ed Kisinger entertained on Monday evening in honor of their son Charles' sixth birthday. There were about ten small tots present and the evening was spent in games and a dainty lunch was served. The color scheme of pink and white was carried out and favors of small baskets of candy were given each guest.

Born—To Mr. and Mrs. William Stoneman, a son.

Born—To Mr. and Mrs. Carl White August 1, a daughter.

Mrs. Chas. Kimmell has returned to her home in Chicago after visiting her sister Mrs. Albert Brant.

Mrs. Clarence Geib and Mrs. Jack Robertson have returned from a four weeks visit with friends in Rices Landing, Jefferson and Wheeling.

George and Bert Nutt visited their sister Mrs. Sharpnack at Rices Landing last week.

Mrs. Ed Furks is visiting a number of relatives in Chicago, Ill.

Mr. and Mrs. J. O. Watson, Homer Watson and Mrs. Hunter Wilson attended the Watson reunion held at Ross Watson's in Washington, Pa., on last Saturday.

Mrs. Holly Bell entertained the members of the Jazz orchestra at her home on Railroad street on Tuesday evening.

Miss Minnie Franks has returned to her home from the Charleroi-Monessen Hospital where she underwent an operation about two weeks ago.

Thomas Purks of Tarentum is the guest of Mr. and Mrs. Ray Purks.

Hiram Foulks was a business visitor in Glassport on Saturday.

J. M. Roberts of Rices Landing visited his sister Mrs. Oscar Carson.

Mrs. Murray Moore and daughter Miss Elizabeth of Edgewood and Mrs. Charles Rink of Indiana, Pa., were recent guests of Mr. and Mrs. Wm. Stoneman.

Mr. and Mrs. Everett Harris visited relatives in Fayette City on Tuesday.

SPLIT IN RANKS! OF BUSINESS MEN

Donora has troubles with Bolshevism, industrial baseball leagues, the high cost of living and other living issues, and now it is confronted with one of a brand new type which may have an important bearing on the business situation in that town for some time to come.

This trouble is nothing less than an apparent split in the Business Men's Association, which may cause considerable trouble, unless the affair is amicably settled by the parties most directly interested.

It appears that a meeting of the association was called for Tuesday evening last by the secretary, W. H. Watson, but it is said the president of the organization, Grover W. Boyd, was not notified. Anyhow there was a meeting, at which it is said a motion prevailed to declare the office of President vacant, and a new head selected. According to what the Secretary is alleged to have said, this was done, Boyd being summarily deposed from office and one Mayer Baranta elected in his place.

It is said that charges were brought against Boyd in which it was said he was forming a conspiracy to discredit organized labor in the mills of the town. Boyd was not informed of the charges until the meeting was over, it is said, and knew nothing of the selection of a new man for his place until the morning after the meeting. At the request of many citizens of the borough he has refused to surrender his office, and now there is apt to be a contest as to which is the real association of the town.

YOUNG MEN WIN FROM OLDER RIVALS

The Second street hill top young men defeated what was supposed to be the "Old Men" of that section in a base ball game, but it is alleged the ranks of the old men were filled with a number of young players. The game was hard fought, eleven innings being required to bring a decision, the score being 4 to 3 in favor of the young men. Batteries were Arrigo and Durtine for the young men and McGuire and Larue for the old men. The comedy part of the game was when Joe Larue for the old men held the bat of Demarco when the latter was about to strike at the ball.

After he lost his hands McGlade took up the study of law. In this he was assisted by a scholarship procured through the Knights of Columbus, but mostly his own indomitable courage and faith in himself carried him through. He has with the assistance of a stenographer progressed to the point where he now becomes a special pleader before the highest bar in the State.

Although armless McGlade has taught himself to write a little, although his office work will be handled mostly through a stenographer.

THIS CIDER HAD A BIG "KICK"

Camillo Florio arrested in Monessen for being drunk and readily admitting the fact, claimed that he had not received a drink of beer, or wine, or whiskey since the country went dry, but—whisper—he knows where to get good cider. This cider is said to be on sale in Monessen, and from the condition in which it left Carmillo after he imbibed a few drinks it appears to have more effective results than four per cent beer or 18 per cent whiskey. Florio refused to divulge the name of the shop where the special brand of cider could be obtained, and the Burgess, before whom he was arraigned, fined him \$1.00 and costs, this being the usual plaster for such dissipation. Florio thought it was rather high, but he paid the price.

"Lemme see one o' dem cuckoo clocks," said Mr. Erastus. "Here you are." "Could you kind o' change de tune a little?" "What's the idea?" "I wants an alarm clock. I don't take to dese hasty an' excited alarm clock. If you could train one o' dese to cackle like a chicken I could wake up spry an' hopeful every time."

Real Meaning of "Salad." Salad literally means salted and is a direct descendant of the Latin word sal, or salt. The use of "salad" to mean the greens from which or on which a salad mixture is placed is one of only recent origin. The Italian insalata and the Spanish salada, meaning salad in those languages, actually mean salted.

Gosh! While a Toledo man was shooting bedbugs in his room, a bullet glanced and wounded his roommate. We have roomed in other towns where you had to go after the bedbugs with a hammer or a baseball bat, but we'd hate to room in Toledo, where you have to go after 'em with a gun.

Allegorical October. In some of the calendars of our ancient Saxon ancestors the month of October is allegorically represented by the figures of a husbandman carrying a sack on his shoulder and sowing grain. It was the sowing of the fall or winter wheat, as we call it in this country.

Well, Many Don't Seem to Have. Robert was a thoughtful child and was used to reasoning out the "why" to his own questions. One day a little boy came in from next door. He asked questions continually and Robert finally looked at him curiously and said, "Haven't you a think of your own?"

Got Drinking Water From Dew. On the rock of Gibraltar and in some parts of England drinking water is obtained by condensation of the abundant dew in especially prepared "pans," which are pits in the earth filled with straw and covered with clay.

Greatness and Strength. Greatness lies not in being strong, but in the right using of strength, and strength is not rightly used when it only serves to carry a man above his fellows for his own solitary glory.

Sicker Than Ever. What makes a kid the maddest is to get sick so he won't have to go to school, and then to find out that the teacher was sick on that day and that there wasn't any school.

Suspicious. "Have you got a lawyer looking after your interest?" "Nominally; but I rather think he has his eye on my principal."—Boston Evening Transcript.

Model K-45

Buick Five-Passenger Touring Car

THE BUICK Model K-Six-45 is a very capable open car for five persons, designed to cover the multitude of uses to which such a car is put. It differs from the big seven-passenger model only in tonneau and chassis length, possessing the same degree of ruggedness, easy-flowing power and mechanical excellence.

The tonneau is even more liberally proportioned. The seat is full three-passenger capacity, set at a comfortable angle. The sides are upholstered clear to the doors with the same French pleated leather used on the cushions and seat backs. Each of the four doors is equipped with a side pocket for storing small parcels. The instrument board is illuminated by a dash lamp. Top and side curtains are made of high grade fabric, the curtains swinging open with the doors. Behind the front seat is a very convenient pocket for storing the side curtains when not in use.
